Help us plan for a better tomorrow
by purchasing a **BRICK** today!

FSL's Fay J. Lindner Health & Wellness Center adjacent to the Iovino Family Center in Bay Shore, New York, is located on the Judith & Thomas Iovino Campus. This innovative facility has bright and welcoming space where our team of psychiatrists, psychologists, social workers, and medical personnel from South Shore University Hospital Northwell Health help us to provide integrated health care and primary medical care to community residents living in the greater Bay Shore area. FSL has a rich history of offering patient centered, culturally sensitive care to all. This project further advanced our mission of providing quality care and you can be part of it by purchasing a brick on the walkway.

The "Maggie Gilliam Pathway To Health & Wellness" is a brick walkway featuring inscribed bricks purchased by friends of FSL. These can be created in honor of, in memory of, or just to show your support.
